Summer/Autumn Newsletter 2017

## PMG Overview

Thank you for joining us at the annual Posture and Mobility Group conference in Cardiff this year where we showcased our most innovative seating and positioning additions.

## New headrest launched

This unique design will allow you to achieve literally infinite positions! Thanks to its adjustment levers, it can offer easy tool-less re-adjustments with superior holding strength resulting in superb comfort for paediatrics through to adults. What's more, its swing-away feature ensures it won't be in the way during transfers. These versatile headrests are compatible with most backrests.

Adapters available for Flex 3 backs

If you haven't yet seen our Matrix® Elan® headrest, then head over to [www.thinkclinicalseating.co.uk](http://www.thinkclinicalseating.co.uk) today or get in touch with your local Territory Manager for a personal demonstration.

## Matrix® Mini - a complete series

The Mini Back attracted some significant interest at PMG thanks to the Mini hardware which utilises our Easy Set design throughout the Matrix range. With the addition of our new Elan headrest series, Mini PS cushion and Mini Laterals, we are pleased to now offer a more comprehensive paediatric range.

If you haven't yet seen our new Matrix® Mini Series, then download a brochure from [www.thinkclinicalseating.co.uk](http://www.thinkclinicalseating.co.uk) or get in touch with your local Territory Manager.

## Matrix® Libra

The Matrix Libra was developed as part of the complete seating solution offering excellent pelvic support and stability, exceptional levels of comfort while providing a high level of protection to sensitive areas. A superior combination of pressure distribution, stability, posture, weight, temperature and freedom of movement.

SEATING SERIES

Coming soon!

# Coming soon: Adjuster O2

Our most popular Vicair cushion will soon be available with the ability to fully machine wash. The Adjuster O2 will be available from mid-September offering all the same characteristics of the standard Adjuster, which we love, but with the O2 design as seen with the Vector O2 and Allrounder O2.

**Further details coming soon!**

## Upgraded Vector O2 (10cm)

The Vector O2 currently has one rear sector but from mid-September will have two. This change offers enhanced stability and better offloading characteristics.

### What else has changed?

The inner fabric used on Vicair cushions will now cover the top of the Vector O2 but it will be perforated and black. The bottom part will remain the same as the current vector O2.

These developments will ensure the same high performance level whilst being easier to clean and increase breathability.

The Vector O2 helps regulate temperature and solves the hygiene issues around single or double incontinence. Due to the open structure of the design and SmartCells, the cushion can be placed in the washing machine in its entirety without the use of a laundry bag or emptying any of the air-filled 'T-bags'. Soon this innovative design will become available across other Vicair models.

**Vicair will start introducing a new generation of SmartCells this September which will include a lifetime warranty.**

*\* Liberty cells are excluded from the Lifetime Warranty*

# ProPad® Revolve

## New cover option

Patients at a high risk of developing pressure ulcers often require a prevention strategy. Invacare offers a range of clinical solutions to counteract the effects of sitting for long periods. Take a look at the ProPad Revolve; a versatile cushion suitable for both wheelchair use and community chairs alike. Long-lasting cushions such as Invacare's ProPad Revolve offers relief to patients at higher risk of developing pressure sores. The high-density foam provides a durable seat with gentle immersion as the seating properties warm with use. What's more, Propad Revolve can be used in any direction to eliminate the risk of using it incorrectly. Now available with a black wipe down cover.

## Softform® Premier

The Invacare Softform® Premier high specification, static foam mattress offers exceptional levels of comfort and pressure re-distribution.

This short video explains how the Softform Premier's unique castellated foam interface conforms independently to body movement and positioning to reduce pressure, shear and friction. The 'Strikethrough Resistant' (SRT) mattress cover is exclusive to Invacare offering increased durability and improved infection control. Available now on You Tube, this footage explains why the Softform Premier mattress is the preferred choice of many clinicians in their pressure ulcer prevention strategies.

# Wounds UK Annual Conference

Wounds UK

This Annual Conference will be held on 13-15 November 2017 at the Harrogate International Centre where there will be over 17 hours of fresh clinical content and workshops. Under the theme 'Integrated strategies and solutions for quality outcomes', these planned sessions will update you in the latest clinical opinion, research and policy from around the UK. Visit us at stand 23 as we participate in the largest exhibition in wound care.

Invacare will be focusing on the Maxxcare Pro Evolution heel boot, which gives Vicair's established air cell technology to prevent pressure ulceration to the heel.

Agenda and booking information available at [www.wounds-uk.com](http://www.wounds-uk.com)

## Just launched: AllRounder O2

Vicair's AllRounder O2 consists of a harness base with a cushion fixed to it. It features five compartments filled with SmartCells which help to protect the skin from pressure and provides comfort for a variety of activities. The new open structure of the AllRounder O2 cushion makes it extremely breathable and washable - a valued feature for sport enthusiasts.

Visit [www.thinkclinalseating.co.uk](http://www.thinkclinalseating.co.uk) for further details or get in touch with your local Territory Manager for a demonstration.

# New Product Specialist

Invacare welcomes Jody-Marie Davies to the Seating & Positioning team where she is providing product support and driving marketing communications for the category. Please give her a warm welcome on Twitter.
