

Invacare®

Esprit Action[®] 4 NG

Easy to transport, lightweight powerchair

Invacare **Esprit Action**⁴_{NG} is a compact and lightweight power wheelchair for those that like to get about easily. It's tool free removable wheels and compact battery pack make it ideal for transporting (heaviest item weighing only 15 kg). It has lightweight wheels with an option for self propel and a reduced overall width (seat plus 170 mm) making it narrow enough to manoeuvre around the tightest of spaces.

The **Esprit Action**⁴_{NG} provides all the advantages of driving a power wheelchair indoor and outdoor, without the size and bulk of an average power wheelchair.

Compact and lightweight

With the new chassis structure (available in 8 colours) and overall width, everything is smaller and narrower for getting around indoors. With a specially designed frame the total width of the chair does not add more than 170 mm to the width of the seating. The **Esprit Action**⁴_{NG} is easy to dismantle making it highly transportable.

Highly configurable

The adult version has eight seat width options from 380 to 605 mm and three seat depths from 400 to 500 mm. The junior version offers four different seat widths of 305 to 380 mm and seat depths from 325 - 375 mm.

More options available

The armrest width allows for configuration adjustments of up to 50 mm (maximum) allowing for more customised seating and frame positions.

It can be equipped with a variety of configured options including backrest for Matrx positioning.

Esprit Action⁴_{NG} also provides the option of an attendant control should this be required. There is a range of colours to choose from including Slate Grey, Pearl White, Blue Pop, Hypnotic Purple, Red Matt and Matt Black for the adult version. For the junior version there is Pearl White, Blue Pop, Hypnotic Purple, Red Matt, Matt Black, Polar Blue and Candy Pink. Please see back page.

Features and options

Dual intuitive pressure sensors

This allows an attendant to drive the wheelchair from behind in an easy yet intuitive manner.

Alber anti-tippers as standard

With Jack up function to help the quick release of wheels.

Castor mounts

Welded castor mounts provide greater rigidity on the front of the chair.

Wheel protection bumper

Features and options

Junior version

Esprit Action⁴_{NG} is available in two different sizes : adult or junior version.

Disassembled and folded chair

The heaviest part weighs only 15 kg (chassis).

Sleek yet powerful design

The **Esprit Action⁴_{NG}** has been designed in such a way to allow all the configurable options you would expect in a manual chair, but incorporating the powerful drive wheels discreetly into the hubs.

Overall width reduced

The frames allow for the motors to sit inside and reduce the width.

Self propel wheels (option)

Convert the chair to a manual chair.

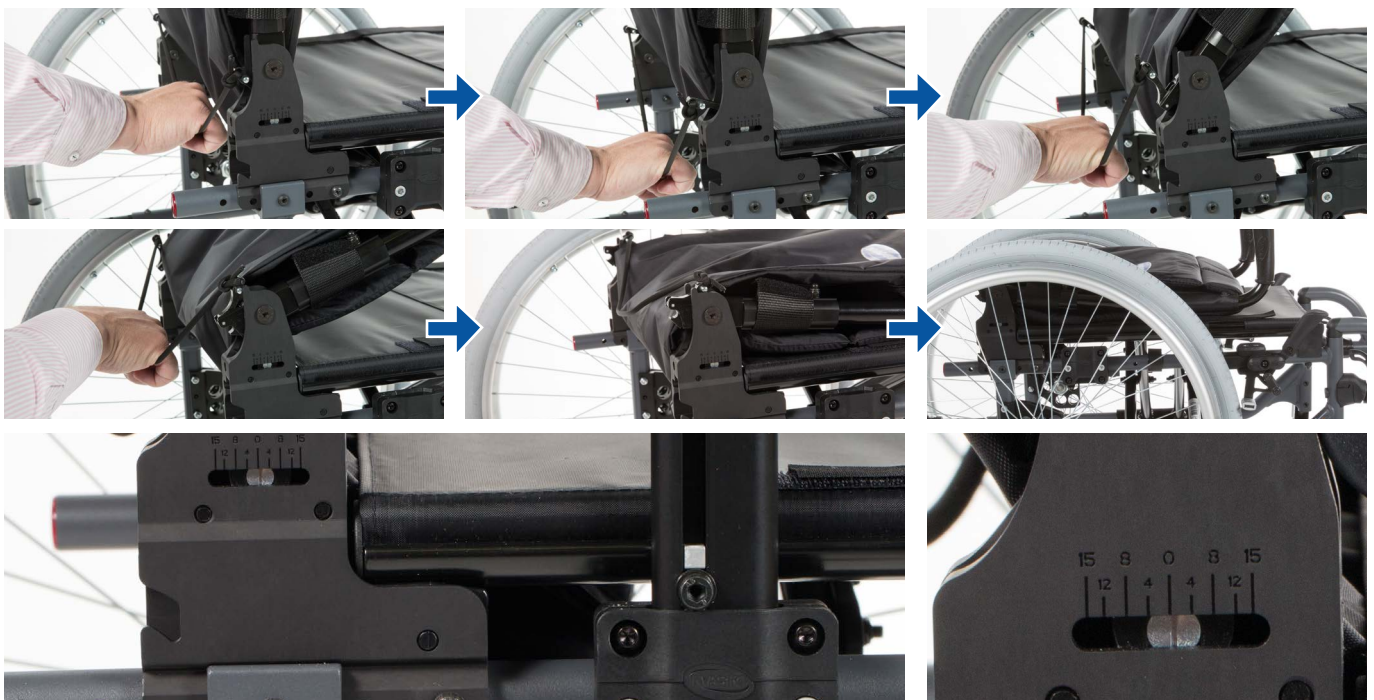

Adaptable arm widths gives up to 50mm adjustment.

Simply push and turn to remove wheel.

Stepless, adjustable, folding backrest

This innovative, patented, angle-adjustable backrest - incorporated from the *Invacare Action⁵* - allows fine adjusting of the backrest angle when the individual is seated in the wheelchair. This unique folding mechanism enables the backrest to fold on top of the seat for easy storage or transportation in a car. In addition, the built in scale allows for a more accurate backrest angle to be set.
