

Invacare®  
**Accessory range**

# Invacare® | *Introduction*

Invacare's range of pressure redistributing accessories have been designed to complement the mattress, overlay and cushion range.

As a combination, our mattresses and accessories offer a complete solution to effective pressure management. Designed in consultation with clinical professionals, these products are constructed from high specification materials to meet the demands of modern healthcare environments.

Invacare's overlays, cushions and accessories range offer a high quality selection of products designed and developed to deliver exceptional support and comfort for those patients considered vulnerable or at risk of developing pressure ulcers.

The cushions and accessories are designed to offer a unique range of ergonomically designed pressure redistributing surfaces, shaped to promote good posture and provide effective pressure redistribution.

# Invacare® | *Odstock Wedge*

## **Pressure redistributing wedge**

The *Invacare Odstock Wedge* was developed in partnership with clinicians to assist in the reduction of interface pressures on the sacrum and heels without significantly increasing pressure on the thighs or calves. It is designed to improve and maintain patient posture in the recumbent position, and to reduce the tendency for the client to slip down the bed, thereby reducing shearing forces on the sacrum. The *Odstock Wedge* is ideal for improving posture for those with back discomfort.

**Yes, you can.®**

Features and Options

**Reduces pressure on the heels**

Clinical research has effectively demonstrated that the degree of knee flexion necessary to achieve substantial levels of pressure relief is relatively small. The *Invacare Odstock Wedge* was designed by clinicians to reduce pressure on the heels through re-positioning the hip and elevating the knee.

**Reduces lumbar lordosis**

By tilting the pelvis, the **Odstock Wedge** also reduces lumbar lordosis – desirable following back surgery and ideal for improving the sleeping posture of patients with back problems.

**High frequency welded seams**

Ensures the core is protected from fluid ingress, increasing product integrity.

**High quality construction**

The multi stretch cover, is waterproof and vapour-permeable. The foam core is constructed from, high density foam.

**Designed to be used in conjunction with the *Invacare Heelpad***

Used in conjunction, these two products combine to significantly reduce pressure on the vulnerable heel area.

Technical data

**Odstock Wedge** Width: 57 cm

Length: 86.5 cm

Height: 11.5 cm

Weight: 1.5 kg

Cleaning: 80°

Refer to instructions for use and relevant infection control guidelines.

Manufactured to European Standards:  
Interior Foam: BS 5852: Crib 5,  
Cover: BS7175: Crib 5

Fuchsia (Standard)

Blue (Option)

Warranty: 1 year

# Invacare® | Heelpad

## Pressure Redistributing Heelpad

The *Invacare Heelpad* is designed to reduce pressure on the vulnerable heel area. The controlled volume of gel in the sacs allows pressure displacement and even weight distribution. Pressure on a patient's heels are kept to a minimum when the heels are in contact with the gel sacs. The *Invacare Heelpad* was designed to be used in conjunction with the *Invacare Odstock Wedge*, but can also be used independently as an effective pressure reducing device.

**Yes, you can.®**

Features and Options

**Designed to reduce pressure on the heels**

The *Invacare Heelpad* enables vulnerable heels to be immersed into independent gel sacs, offering significant pressure reduction and comfort to clients.

**Enhanced combined performance**

The *Heelpad* offers enhanced performance, when used in conjunction with the *Odstock Wedge*, by providing improved support for the lower limbs, and pressure redistribution for the heels.

**Single and Double Heelpads available**

Single and Double formats available to meet specific patient requirements.

**Heelpads supplied with three platilon covers**

Platilon protective covers are disposable, and help to avoid contamination of the heelpad.

**Designed to be used in conjunction with the *Invacare Odstock Wedge***

Used in conjunction, these two products combine to significantly reduce pressure on the vulnerable heel area.

**Technical data**

<b>Heelpad</b>	Width: 62 cm	Length: 48 cm	Height: 5 cm, 3.2 cm	Weight: 3.58 kg

Invacare® | **Leg Trough**

**Shaped leg support - provides comfort and promotes recovery**

The *Invacare Leg Trough* has been designed in consultation with clinicians to provide maximum support for the whole leg. The **Leg Trough** elevates the heels and allows them to be suspended over the edge of the trough. This provides maximum pressure relief for the vulnerable heel area.

**Yes, you can.®**

**Features and Options**

**Provides comfort and support to promote recovery**

The leg trough offers optimum support and protection for the whole leg, reducing pressure and promoting recovery.

**Relieves pressure on vulnerable heels**

Elevates the heels and allows them to be suspended over the edge of the trough, providing pressure relief for the vulnerable heel area.

**Heavy duty water-resistant cover**

A two-way stretch, vapour permeable and anti-static polyurethane (PU) water-resistant cover.

**Cover includes a zip and is removable**

The cover can be unzipped and removed from the foam core to allow laundering of the cover.

**Available with or without straps**

The adjustable side squeeze clip buckles provide additional positioning for the leg.

**Part numbers for Leg Trough range with straps:**

- Small - MLT/S
- Medium - MLT/M
- Large - MLT/L

**Part number for Leg Trough range without straps:**

Invacare® | **Flexipad**

**A range of versatile support pads**

*Invacare Flexipads* are highly versatile pads filled with silicone gel, and can be used to position and support limbs, joints, the torso or the head.

**Yes, you can.®**

**Improves positioning**

Invacare **Flexipads** can be used to position limbs for treatment, whilst recovering from an injury, or to assist in maintaining a more comfortable position to alleviate pain.

**Improves support**

Easy to use and adjust to position, **Flexipads**, can provide supplementary short-term support for patients experiencing difficulty in maintaining posture.

Features and Options

**Single Flexipad**

Single gel sac one side with foam the other - Fitted with a strap for fastening to chairs, the Invacare **Flexipad** increases the surface area under elbows, arm or back.

**Double Flexipad**

Two gel sacs wrapped in a visco elastic (memory) foam – highly versatile in a number of applications, including supporting large bony prominences.

**Flexipad Ultra**

Two gel sacs wrapped in a stand high density foam - A lighter, more flexible format, available with or without straps.

**Technical data**

# Invacare® | **Flo-tech® Back Support**

**3 Year warranty**

## **Invacare *Matrix Flo-tech Back Support***

The *Invacare Matrix Flo-tech Back Support* range has been designed to provide added stability to a wheelchair or standard armchair and it can be used in conjunction with any *Matrix Flo-tech* cushion.

The *Matrix Flo-tech Back Support* range provides excellent comfort and improved positioning, which in turn helps to improve or maintain independence whilst in the seated position in a wheelchair or armchair. The unique supportive design offers protection from pressure ulcer formation and spinal deformities which can cause severe pain.

**Yes, you can.®**

Features and Options

**A highly protective Back Support**

The **Back Support** provides a high degree of stability and protection from pressure ulcer development.

**The added support of the Lumbar**

The **Back Support with Lumbar** can be used for those patients who wish to have increased lateral and pelvic stability. The Visco Elastic Lumbar Support contours to the individual and can be easily adjusted and secured with Velcro pads, to accommodate a range of heights.

**Cover is moisture resistant**

Cover is two-way stretch, moisture-resistant and vapour-permeable, which helps to prevent a build up of shear and friction forces against the person.

**Extendable Straps**

Offers the person a securely fixed **Back Support** on a standard armchair or wheelchair. The straps are easy to adjust and can be fixed to a position that provides the user with the maximum comfort and support.

**Ultra-Fresh™ added to all Flo-tech foam for antimicrobial and odour protection**

Antimicrobial treatment that has been added to all **Flo-tech** foam to help make it resistant to the growth of odour causing bacteria. Helps provide longer lasting freshness.

Invacare® | ***Flo-tech® Lumbar Pad***

**Improving posture, comfort and support**

The *Invacare Flo-tech Lumbar Pad* is designed for use on existing chairs or wheelchairs and can improve posture, comfort and support. The Lumbar Pad is simple and easy to use. It is fitted with adjustable straps and comes complete with a black fabric cover.

**Visco Elastic (Memory) Foam**

The **Lumbar Pad** is made up of two foams; Visco Elastic (Memory) foam on one side and resilient, high density foam on the other. This combination of foams provides the client with added support to the lower back. The resilient high density foam increases the support of the product whilst the Visco Elastic foam absorbs pressure from the client.

**Features and Options**

**Adjustable Straps**

Provides the client with improved comfort, adjustability and positioning.

**Technical data**

Size: 42 x 20 x 5 cm
