

# e-fix Mobility App.

The e-fix Mobility App:  
available in the Google  
Play Store and App Store.

## The smart assistant on the go

Did you know there's a quick way to check the remaining capacity of your e-fix battery pack\* and see what distance you can still cover? Simply launch the Mobility App on your smartphone and find all the information you need. The Mobility App also comes with useful everyday tips for your e-fix.

## The App at a glance:

### Guide:

- Quickstart guide
- Error information with suggested solutions
- Worldwide specialist dealer search

### Cockpit:

- Remaining capacity and range display
- Tour computer
- Route recording

You can benefit from extra features on the e-fix app, including convenient remote control and a speed boost from 6 km/h to 8 km/h, with the Mobility Plus package.

\* Requires a Bluetooth-enabled control unit (look for the Bluetooth symbol  at the top left of the e-fix display).

## Remote.

- Smartphone-based remote control of unoccupied wheelchair
- Can be controlled using integrated inclination sensor (by tilting smartphone slightly) or virtual joystick

## Phone.

- Notification of incoming calls or text messages appears on display

# e-fix Mobility Plus Package.

You've got a special date in town with friends or family – but where's the café everyone is meeting up at? With **easyNavi**, finding your destination is simple. The easy-to-use navigation system will guide you to your destination via a wheelchair-friendly route, so you can relax and enjoy your day. If the route allows it, you can travel at a speedy 8 km/h\*. And to make sure you don't miss anything, notifications of incoming calls and messages are displayed on the e-fix control unit.

The Mobility Plus package contains a booklet with operating instructions and a license code to activate the extra features. For this, a smartphone with internet access is required.

**The Mobility Plus Package is available from an authorised Invacare/Alber retailer.**

\* With Mobility Plus package. Observe the laws and regulations applicable in the country of use. Where road traffic licensing regulations apply, the speed must not exceed 6 km/h, the 8 km/h assistance speed is only permitted in private areas.

\*\*Please note, the iPhone app does not display incoming calls or SMS messages.

## Functions of the Mobility Plus Package

Speed: Increases maximum speed from 6 km/h to 8 km/h

easyNavi: Wheelchair-friendly navigation system
